

**PRODUCT INFORMATION SHEET****BENNEX PORTABLE LCD MONITORS****Highly robust portable monitors with pan/tilt control and on board power****DESCRIPTION**

The Bennex Portable LCD Monitors have been designed to operate with our range of BC-300 series pan and tilt cameras. The PM-303 system has been specified from the outset for daily use as an aquaculture feed monitoring system and as such is of very high specification – in terms of water resistance, screen resolution and robust construction.

When open, the screen and control panel are fitted into a completely sealed (IP66) base. This means that the system is capable of operating in even the harshest weather on an open craft. The heavy duty waterproof case ensures that the system is totally watertight when the unit is closed.

By using the latest 15" LCD screens we can ensure not only outstanding image quality but also compact dimensions and low weight to make it easy to transport. The camera connection is a wet mate submersible ensuring long life with only minimal maintenance. The PM-303 is specified with an on board battery and the unit is supplied with external mains charger. On a full charge you should be able to operate our BC series pan/tilt cameras for around 8 hours. The unit can also be supplied with a battery lead to connect to an external car type battery.

**FEATURES**

- Very robust
- Compact & Lightweight
- Designed to work with Bennex Pan and Tilt Cameras
- Can be configured to work with any other type of P/T camera
- IP66 rated when open
- Hugely robust IP67 watertight case (when closed)
- Hi-res 15" LCD screen
- Internal battery pack
- Wet mate connection for camera
- Video output

**PRODUCT INFORMATION SHEET**

<b>Model</b>	<b>:</b>	<b>PM-303</b>
Screen		Hi res 15" LCD Flat Panel
Video System	:	PAL/NTSC
Colour System	:	Colour or mono
Dimensions	:	470 W x 371 D x 191 H mm
Weight	:	7.5 kg
IP Rating Open	:	IP66
IP Rating Closed	:	IP67
Standard camera Connection	:	BH6FS
Power Requirement	:	12vDC On board battery
Charger	:	230vAC 50 Hz
Supplied with		Mains charger (UK & Euro plugs) 3m Video output lead to RCA phono plug Manual
Part no		22.0046
