

## Electrical / Hydraulic Jumper Installation Basket

### DESCRIPTION

The Jumper Installation Basket is designed to ease the subsea installation of electrical and hydraulic jumpers. Its size ensures that it can be utilized from small vessels such as supply boats. The frame also supports MQC and electrical parking places that can be configured to your installation needs.

### FEATURES

- Parking places for hydraulic MQC plates and electrical connectors
- Parking place configurations can vary to accommodate specific requirements
- Baskets can be used as storage crates
- Pre-installed jumpers ensure ease of installation
- Weight: 475 kg
- Payload: 750 kg
- Length: 3000 mm
- Width: 2000 mm
- Height: 800 mm
- Weight in Air: 475 kg
- Weight in Water: 415 kg
